

CICALICS Workshop 2016

CALL FOR PAPERS

Theme:

Innovation at Business, Regional/National & Global Levels in a Collaboration Perspective

August 27-28, 2016

Sino-Danish Center, Beijing, China (School of Management, UCAS &
Department of Business and Management, AAU)

The CICALICS-2016 Workshop aims to link scholars and research groups on learning, innovation and competence building for development in China with international research communities. Cicalics provides a platform to discuss the challenges and opportunities of the industrial transition process facing Chinese companies and China at large. These challenges and opportunities include the dynamics achieved through global engagement and collaboration with MNEs and internationalization of R&D, including acquisition of R&D facilities abroad.

The theme of CICALICS Workshop 2016 is:

Innovation at Local, National & Global Levels in a Collaboration Perspective

This year, we would like to put more emphasis on collaboration. Collaboration, which takes many forms, seems to be a key word for innovative performance and constitutes an essential part of both innovation theories and practices. Just to mention a few examples, all the following constructs entail collaboration: R&D-teams, network, interaction, Triple Helix, strategic alliance, user-producer interaction, open innovation, etc.

CICALICS is an open forum with room for a wide set of topics related to learning, innovation and competences. For example, in recent years, a set of initiatives have been launched in China and many of them aim to develop an innovation driven China. In CICALICS 2016 we hope to see many innovation related papers that study and bring these new initiatives into the research arena, including "China Made 2025", "Internet +", "Smart Manufacturing", Mass Innovation Entrepreneurship, etc.

At the same time, Cicalics welcomes more global topics such as: the role of MNE-R&D in China within an innovation driven economy, the gradual formation of a Global Innovation System, The effect of Chinese OFDI into R&D on developed and developing countries, etc.

Finally, having recently witnessed the Cup2016 in Paris aiming at assuring a sustainable world, it would be interesting to have papers on practices and strategies of green innovation and sustainability and associated with them new business models.

Submission and acceptance

The CICALICS 2016 Workshop welcomes scholars willing to present their work in the areas mentioned above. However, the forum also welcomes the attendance of scholars who are not presenting a paper, but are willing to engage in a progressive and constructive dialogue on the topics of the forum.

To present a paper at the Workshop, please submit an extended abstract (about 1000 words) to the 2016-CICALICS Organizing Committee **before July 15, 2016 (Extended until August 12th)**.

The Scientific Board of the CICALICS 2016 Workshop will review the abstracts and make an acceptance decision. The authors of the abstract will be notified of acceptance by August 1st. The authors of accepted abstracts willing to pursue publishing opportunities in the outlets affiliated with the forum (see section below on Full Paper and Publishing Opportunities) will be required to submit full papers before the workshop (Updated deadline for this - August 10th) and present the paper at the workshop.

The extended abstract is to be submitted **to Daojuan Wang (daw@business.aau.dk) no later than July 15th, 2016 (Extended until August 12th)**.

Contact: For further information, please contact: Daojuan Wang (daw@business.aau.dk) or Olav Jull Sørensen (ojs@business.aau.dk). Please also follow all the latest information on the CICALICS-dedicated section of Sino-Danish Center website at:

<http://sdc-socialscience.com/2016-cicalics-academy-and-workshop/>

Deadlines:

Abstract of 1.000 words: July 15, 2016 **(Extended until August 12th)**

Notification of acceptance: August 1, 2016 **(For delayed submissions one week after submission)**

Full Paper and Publishing Opportunities

We encourage contributing authors to develop full papers that after the CICALICS Workshop can be taken to the publishing stage. CICALICS 2016 aims to provide the publishing opportunities for good papers. We have established links to the new Tsinghua University based "International Journal of Innovation Studies" and agreed to a special CICALICS 2016 issue. Furthermore, we have established links to "Asian Journal for Innovation Policy" to recommend high quality papers to be published in the journal. In general, CICALICS will review the full papers and will aim to support the publishing process.

Registration and Fees:

Before July 15 the registration fee is RMB 1200

After July 15 the registration fee is RMB 1500

Tentative Cicalics Workshop Schedule
